

We have just produced a free downloadable infographic on the Asian hornet, a growing threat to honey bees in Europe. [Download it from the Vita Gallery](#) (free registration).

Have you ever wondered where bees you see foraging come from? Here's [a review of Prof Tom Seeley's new book *Following the Wild Bees*](#), a book that tells you how to track down their homes.

It's not too late to download the Vita Calendar for 2017 – packed with great photos from beekeepers across the world. [Download it from the Vita Gallery](#) (free registration).

The small hive beetle may be on the way

Beetle
